

Warm up with Hot Chocolate Milk!

Hot chocolate milk is an easy way to add something “new” to your breakfast or lunch menu on a cold winter day. It is Smart Snack compliant too!

Directions:

Heat fat free chocolate milk on low heat on stove top or in oven (be careful because it will burn).

Serve in a styrofoam cup with a ‘coffee sip lid’.

Tip!

- **8 fl oz serving** can count as milk component for breakfast or lunch at all grade levels.
- **12 fl oz serving** can be served at middle and high schools a la carte.

“The students went crazy! My breakfast count went way up on those days. My building is K-8 so this is perfect for me because we are so limited on drink offerings. The kids feel “grown up” because it almost seems like a coffee thing. Kind of one of those ‘duh, why didn’t I think of this before!’”

- Rita Eisenmann, Britton Deerfield Schools
