

Make Moo Masks

Create cow masks for June Dairy month out of paper plates. Here's what you do:

1. Cut one of the small paper plates in half for each child.
2. Give each child 1 large-size and 2 small dessert-size paper plates.
3. Help children staple or glue the plates together as shown.
4. Cut holes for the eyes. Let children add a mouth, nostrils, spots, etc.
5. Add a "cow tag" to one of the ears and have children put their birth date in numbers on the tag.
6. Attach a ribbon, string, yarn or elastic cord to each side of the mask.
