Set of 3: FUTP-WA-PKG-LMN

Use the paint palette options and design templates in this guide to transform your cafeteria into a fun and inviting space for students!

The National Dairy Council has teamed up with the NFL to create Fuel Up to Play 60 (FUTP60), a project to encourage healthy choices and active lifestyles. The designs and color palettes were developed by Interior Systems Inc., a nationwide design firm that specializes in designing and transforming dining spaces that result in increased participation.

On the following pages you will find:

- Page 19 - Paint colors that are designed to work together with the template designs provided. Sherwin Williams is the paint specified; however, your school facilities division will be able to take this to the local paint store and match the color to the paint brand of your choice. Three different color palettes are provided.
- Page 20 - Tips and suggestions for painting in different sized rooms.
- Pages 21-24 - Four different paint patterns that can be used on an accent wall or throughout the space – Boxes, Circular, Stripes, and Sunburst. Transparencies are provided for the four different paint patterns. To use, copy the pattern of your choice onto a transparency. Project the transparency onto the wall and mark the pattern lines on the wall. Paint according to the paint pattern you selected. Please note; we do not provide transparencies.

NOTE: Your school district may have specific policies regarding vendors for painting. Be sure to check with your school/district leaders and school maintenance / facilities staff before beginning any restyle project.

Paint Pattern Suggestions

Tips & Suggestions for painting in different sized rooms.

IF YOU HAVE A LARGE CAFETERIA:

- You can use any color hues (dark, medium, light)
- All walls can be patterns

IF YOU HAVE AN AVERAGE SIZE CAFETERIA:

- We suggest you pick two walls to complete with a pattern. More than two walls may be too much for this size space

IF YOU HAVE A SMALL CAFETERIA:

- Use lighter colors. Darker colors visually shrink your space
- Lighter colors allow light to reflect, creating the appearance of a larger space
- Do not use patterns on all walls; ideally only use pattern on one wall

IF YOU WANT LESS LINES DIVIDING YOUR PAINT COLORS:

- Uses block of colors
- Showcase a larger wall

Paint Pattern - Boxes

This geometric design is a simple pattern that in interesting, yet subtle.

Paint Pattern - Circular

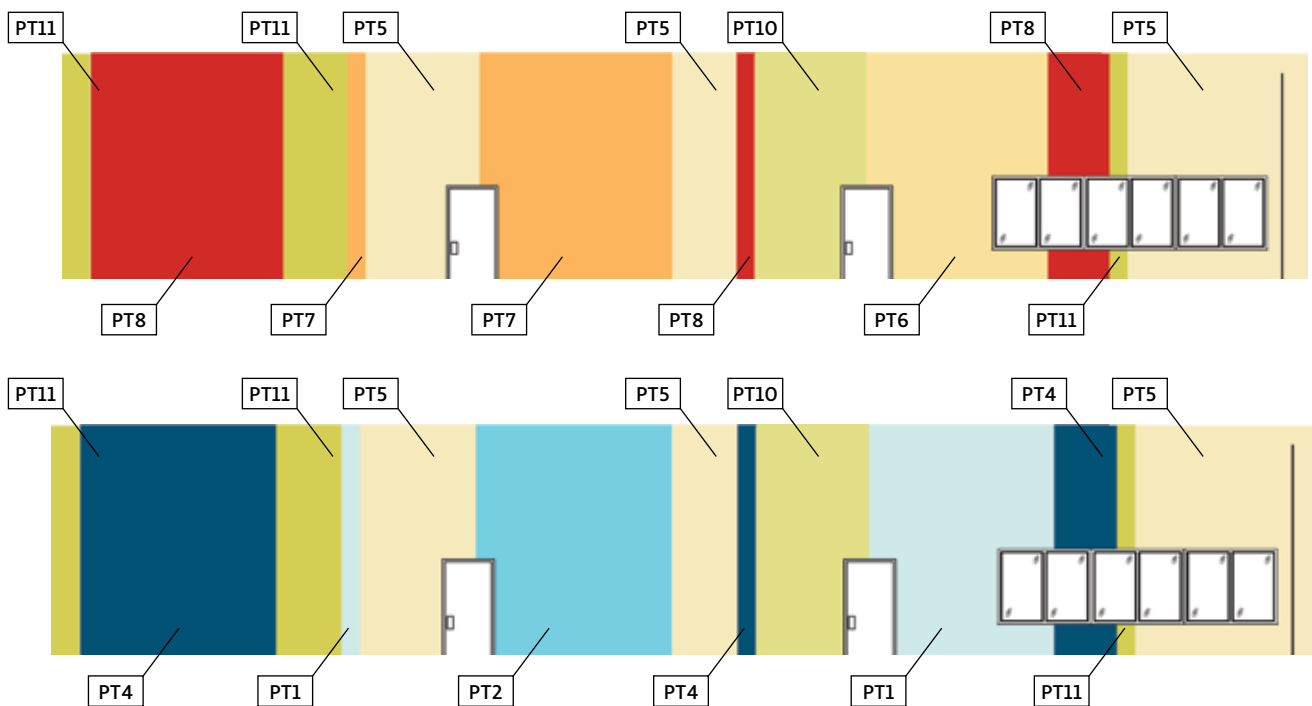

Create movement with this circle pattern that can be tone on tone or more colorful.

Paint Pattern - Stripes

Simple lines of color for a not-so-simple space.

Paint Pattern - Sunburst

This fun and lively patterns not only signifies movement but creates it.

ELEVATING the STUDENT ENVIRONMENT.

Its all about experience.

With design projects in over 800 schools nationwide,
Interior Systems is changing the face of school dining.
