

Take a **VIRTUAL FARM TOUR**

of a Local Michigan Dairy Farm

Virtual Farm Tour Academic Standards

A 45-minute tour of a Michigan dairy farm will take the students through the life span of a cow. Students will see how the cows are milked, hear about where the milk goes and the goods that are produced. The dairy farmer will show the various tasks he does throughout a typical day and show how the farm is sustainable. Students will also learn about the important role dairy plays in healthy nutrition.

Throughout the live virtual farm tour, students will have the opportunity to send questions to the dairy farmer. This fun interactive tour will help students learn where milk comes from, how it is produced and the many different foods that are made from milk.
